

Introduction

In the beginning.

In 2001, during the construction boom, a niche in the market was recognised by a keen entrepreneur and Handles Inc. was born. Lawrence Koff wanted to change the perception of how big a difference a seemingly small detail, like a door handle can make and offer the best service and product in the market.

From these early beginnings with the original Strand Street store, today we have 6 branches with our headoffice in Bree Street, Cape Town. Future plans to expand into all major cities is on the cards.

Our range and depth is well over 10 000 inventory items with a selection to suit every design and budget. We are the choice supplier and retailer to everyone from the DIY handyman to the top architects, builders and designers in South Africa.

Our offering ranges from handles to door controls and mechanisms, specialised window fittings, custom-made and bespoke ironmongery, bathroom fittings and a host of accessories that serve the industry.

BEST

1

Being the best-in-the-game means we truly have a handle on what we supply; we strive to make sure all products are produced and supplied to meet their price-point.

PRODUCTS

2

Over many years we have cultivated an expertise encompassing a vast array of products – local and international. This allows us to present to you the very best.

SUPPORT

3

They say great customer support is the foundation of every company; but for us it's more than that. Working with you every step of the way is what gets us out of bed in the morning.

Fritsjurgens Door Pivots

Fritsjurgens

Every FritsJurgens pivot hinge offers the architect the possibility to design pivot doors without limitations. The high load-bearing capacity of the hinges gives freedom to create pivot doors that exceed the function of a normal door and become true design statements. From frameless subtle doors to true eye catchers or even hidden bookcases, FritsJurgens pivot hinges make it possible for architects to bring their visions to life.

The System M hinge is virtually indestructible. Built from high performance materials, the system is maintenance-free. Our rigorous testing has shown that even after 1 million cycles (similar to 136 years of daily use) System M still behaves flawlessly. System M packs the highest corrosion resistance. Even the most diverse conditions do not affect the operation of this system. System M packs an enormous amount of force into a compact space. To harness this power we have developed a casing out of a monolithic piece of aluminium. We have also made the camshafts out of tempered steel for ultimate endurance. This is a system truly designed for the ages: invisible, built-to-last and maintenance-free.

The System M adds a new dimension to the pivot door by creating the ultimate smoothness: total control over the movement of the door.

- Hold positions at 0°, 90° and -90°
- Self-closing from -125° and 125° - After opening, the door returns smoothly to the 0° position. The door can be manually set to the hold position 90° or -90°.
- Adjustable closing damping (soft close)
- Adjustable hydraulic back check
- No structural elements in the floor or ceiling
- Quick and simple to install
- Maintenance-free
- For new construction and retrofit situations
- Easily adjustable
- Timber, steel, massive and aluminium doors
- Steel and timber framed glass doors
- Single and double-acting pivot doors
- Interior and exterior doors
- Commercial and residential

No structural elements in Floor and ceiling

The revolution FritsJurgens® brings to the idea of a pivot door is that all the closer technology is fully-mortised in the top and bottom of the door, so that only floor and ceiling plates need to be installed. A virtually invisible system.

The bottom hinge of System M and its floorplate have been completely re-engineered from the ground up to deliver a state-of-the-art closer in the smallest profile possible for just about any door. The system can be combined with existing FritsJurgens® top pivots.

Systems features

Load-bearing capacity (up to)	500 kg	500 kg	500 kg
Maximum weight at latch force	NA	350 kg	300 kg

Overview systems

The FritsJurgens® pivot door range consists of three systems.

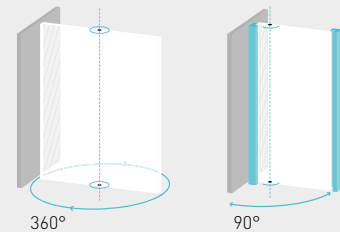

System One is the most compact system: the hinge acts as a revolving point.

SKU: 60010/b11

Movement

- Rotates 360°
- No hold positions or closing function

Positioning

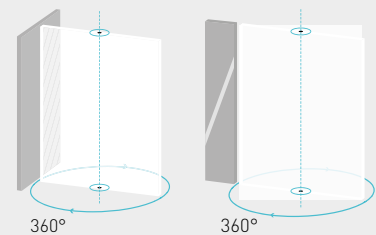

System 3 has three functions: rotation, closing and hold positions. System 3 can turn through 360° and is characterized by a hold position at every quarter of a circle.

SKU: 600128/b11

Movement

- Rotates 360°
- Hold positions at 0°, 90°, 180° and 270°
- Self-opening - The door automatically moves from each 45° angle in both directions to the next hold position
- Self-closing - The door comes to rest in the desired hold position after a few movements

Positioning

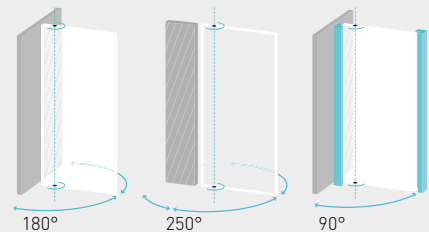

System M adds a new dimension to the pivot door by creating the ultimate smoothness: total control over the movement of the door.

Movement

- Hold positions at 0°, 90° and -90°
- Self-closing from -125° and 125° - After opening, the door returns smoothly to the 0° position. The door can be manually set to the hold position 90° or -90°.
- Adjustable closing damping (soft close)
- Adjustable hydraulic back check

Positioning

Drop Down Seals

CCE – Automatic drop down seals

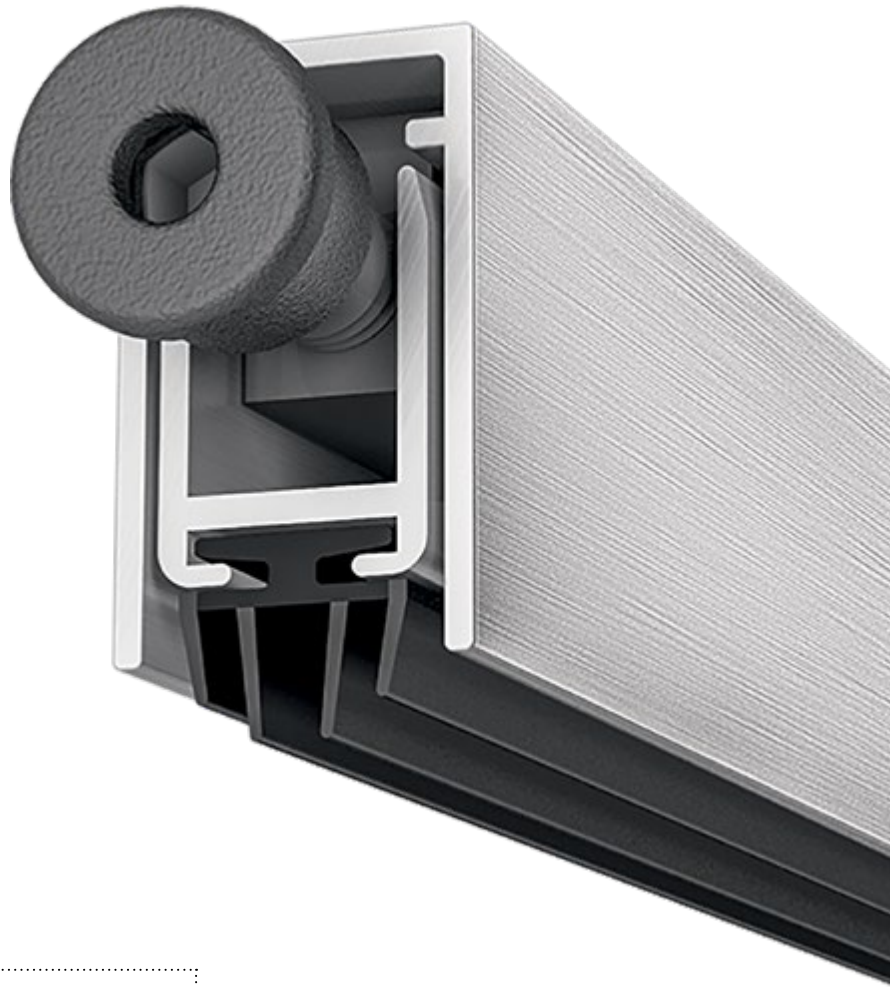

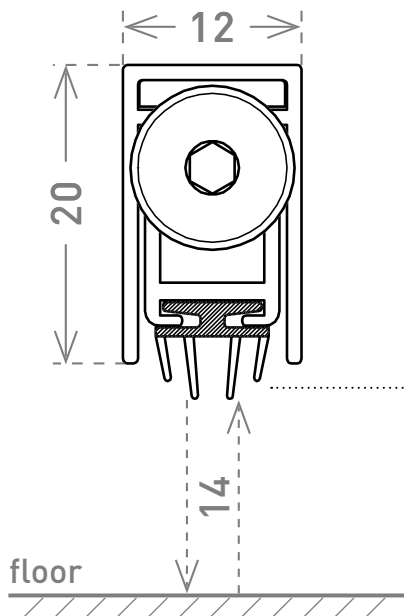

Automatic drop-down seals for doors are created to close the annoying gap between the door and the floor. Filling the gap when the door is closed, automatic seals keep out dust and insects and protect from air, water, wind and noise to guarantee comfort and safety in living spaces. CCE offers a wide range of products with particular performances to fit any application.

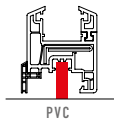

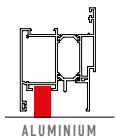

TREND

A basic model, small in its dimensions, available with many different combinations of seals and plungers. Despite its simplicity this product can guarantee great acoustic performances, from 32 dB to 39 dB noise reduction depending on the type of seal

Finishes

Galvanic finishes

The handle is protected by a layer of chrome. Galvanisation of the brass handle gives it a protective metal coat of nickel-chromium to guard against wear and corrosion.

PVD Finishes

With physical vapour deposition, a polished or satin-finish chrome handle is coated with an ulterior layer of metal (superfinishing) under high vacuum. Vacuum metallisation is extremely hard and durable. Nano composites of metal determine the specific colour of the surface and protect it from wear, scratches and aggressive substances such as humidity, sweat, salt spray, temperature swings and ultraviolet rays.

Superfinish®

Superfinish is a new technological finishing cycle patented by Olivari after having developed and perfected it in its factories. It consists of depositing metal composites, with special features, on brass in titrated alloy.

Olivari guarantee

Guarantee period

The guarantee period changes according to the finish type and begins on the day of purchase by the first end-user:

SuperGold bright and satin: guaranteed for 30 years.

SuperNickel bright and satin: guaranteed for 30 years.

SuperSainlessSteel satin: guaranteed for 30 years.

SuperCopper satin: guaranteed for 10 years.

SuperBronze satin: guaranteed for 10 years.

SuperAnthracite satin: guaranteed for 10 years.

Guarantee exceptions

Not covered by guarantee is damage caused by:

- not following assembling instructions
- not following maintenance instructions or using cleaning products not recommended
- blunt and/or sharp objects
- improper use and use not consistent with normal use of the product.

Guarantee conditions

The guarantee covers only the first purchasing end-user and is valid for the period described above.

Complaints must be made at the headquarters of the store where purchase was made. After the complaint has been accepted by Olivari s.p.a. technicians the guarantee covers the purchaser for, alternatively, free repair of the product, substitution of the same, or refund of the maximum amount of the price on the purchase receipt for said product. The guarantee is not extendable, and, therefore, Olivari s.p.a. is not responsible for refunding any costs for shipping and/or delivery, disassembly and/or re-assembly of the product. Furthermore, no other damage will be reimbursed even if due to product non compliance.

Warranty Statement

HANGLES INC provides the following warranty in relation to its products:

Warranty against defects in the materials and workmanship of the Product – 1 year from the date of installation / delivery unless specifically covered by the manufacturer for a longer period.

The warranty is subject to the following conditions:

1. The purchaser acknowledges that the products are not indestructible, and that some care in installation and maintenance is necessary. The warranty therefore excludes any damage caused by misuse or failure to adhere to the manufacturers installation specifications and guidelines or other cause other than defective materials or workmanship.
2. Any claim for warranty must be made, by contacting HANGLES INC at the address listed above, at the earliest stage that the defect becomes obvious to enable prompt action and to avoid further damage, and must be made no later than 1 month from the defect/date of repair becoming obvious.
3. If a defect covered by warranty appears before the end of the Warranty Period, then HANGLES INC will, in its sole discretion, either:
 - a. replace or repair the Product or defective part of the Product free of charge; or
 - b. refund the price of the product; or
 - c. re-supply the defective labour and workmanship; or
 - d. refund the price of the labour and workmanship.
4. Products presented for repair may be replaced by refurbished goods of the same type rather than being repaired. Refurbished parts may be used to repair the Products.
5. Any claim for warranty must be accompanied by appropriate documentation which stipulates the date of the installation, the invoice number, the customer name and address and the alleged defect.
6. The customer must make the product or workmanship available to HANGLES INC for inspection and testing. If HANGLES INC finds no fault in the Product or its workmanship, then the customer must pay HANGLES INC usual costs of service work, inspection and testing.
7. Warranty work will be conducted by HANGLES INC during normal working hours (8.00am to 4.30pm Monday to Friday).
8. No liability is accepted for, and this warranty does not apply to:
 - a. fair wear and tear;
 - b. defects arising due to installation of the Products where the Products were not installed by HANGLES INC suggested agents;
 - c. any damage caused to the structures the Products are installed in, where the products were not installed by HANGLES INC suggested agents.
- d. damage caused by circumstances beyond HANGLES INC control.
- e. products that have been used other than for the purpose for which they were designed;
- f. defects that arise due to abuse, misuse or neglect;
- g. damage caused by exposure to abnormal conditions including but not limited to environment, temperature, water, fire, humidity, pressure, stress or similar;
- h. products that have been modified, built on or repaired;
- i. products that have not been maintained as recommended by HANGLES INC;
- j. maintenance items (which are the responsibility of the customer);
- k. products installed, maintained or operated other than in accordance with HANGLES INC instructions; and
- l. overhaul, replacement or repair works undertaken prior to approval from HANGLES INC of any warranty claim.
9. HANGLES INC makes no express warranties or representations other than set out in this warranty.
10. HANGLES INC reserves the right to alter product specifications at any time.
